### ACD-mission statement

is to contribute to the current Austrian national, European, and international endeavors toward the realization of the 17 sustainable development goals through cultural diplomacy activities. In cooperation with the governmental and non-governmental sector, public sector, private sector, and civil society ACD-team and its cultural ambassadors are active in the development and exchange of good practices, and promotion of the Sustainable Development Goals (17 SDGs) and the UN Agenda 2030 as a value compass and as the common frame for development of projects and partnerships. feminist approach and the *planetary thinking* practice is grounded in the scientific theories and concepts deriving from research and findings connected with diverse forms of gender-based violence, unequal rights, and opportunities, and the interconnectivity of people and the planet. Trust in the ability of all humans to act responsibly, practice *love to our next*, and therefore act carefully, by leaving and causing NO damages toward and within the human world and nature is a precondition for life together in peace. Therefore, our team promotes sustainable cultures in relations and relationships with a term coined from Austrian reform pedagogue [Marta Schörl's](#) humanistic education approach and methodology, guided by the thought "*Bleiben wir in der Liebe*" and educational practice for life with, within and the culture of *Mitmenschlichkeit* **#stayinlove**

ACD has been fully financially founded by ACD-President Tatjana Christelbauer since its establishment in 2016. Philanthropic aspirations and private investments of the ideal and financial resources of ACD-founding members could build a solid base for development of various projects and initiatives. For some project activities, ACD has been supported by Austrian State Chancellery and Vienna Magistrate MA7 with the grant. All project reports have been provided to founding institutions, and promoted via ACD social media pages with photo -and/or video documentations and blog articles.

### **Financial statements 2016-2021 and Activities**

ACD has been fully financially founded by ACD-president since its establishment in 2016. As a nonprofit association, our team invests into activities which are not depending on grants but require high commitment and engagement of our participants and fellows. Our aim is to keep the free space for planned, but also for spontaneously initiated activities. Therefore, is our private investment the first grant for development of all projects. For a long-term development will be required to build on a stable financial pillar which will allow us more freedom of action, more quality in performance and assistance through part time or permanent employed members.

Some ACD-projects and meetings have been supported by the Austrian State Chancellery and Vienna Magistrate MA7 with grants since its opening ceremony in 2016.

**Regular monthly expenses** for internet, mobile phone, computer, as well as creation, design and print of all documents and brochures for documentation of activities are **fully financed by ACD-president** privately.

Our financial statements include full informations about all ACD-activities and expenses, as well as grants from public institutions as following:
